Kneipp Sanitarium

FOR THE CURE OF ACUTE AND CHRONIC DISEASES

2467 First Street . . San Diego, Cal.

This institution is strictly a Kneipp institution. All treatments are administered in exact accordance with the precepts of Kneipp himself. My marvelous success in curing the sick has been achieved through means of my long experience, coupled with the knowledge of how to properly administer the various treatments, and by strictly confining myself to the Kneipp method of treatment. Numberless sufferers have come to me afflicted with very critical diseases which had been pronounced incurable by other practitioners. But with my method of treatment I have obtained the most astonishing results, restoring them to health. I hold in my possession numerous testimonials substantiating the above statement; testimonials freely tendered to me by the best people in the city and elsewhere. All sufferers desiring relief, who are not familiar with the Kneipp treatment as it is practised by me, are requested to call, and I will furnish them convincing proofs that any and all diseases, whether acute or of long standing, will yield to my system of using the Kneipp method of treatment. I charge nothing for consultation. Pamphlets furnished upon request.

VISIT

LA JOLLA The Gem...

One of the most beautiful seaside resorts in California, situated fourteen miles north of San Diego, on line of the LA JOLLA RAILWAY

ONE OF THE CAVES AT LA JOLLA

You find here some of the most rugged, picturesque scenery on the coast. Among the attractions are the seven Mammoth Caves, carved from the Giant Cliffs by the hand of nature; also Cathedral Rock, Alligator Head and Gold-fish Point.

The Sub-marine Gardens, viewed from glass-bottomed boats, through which you can see gold-fish feeding among the rainbow-tinted shells, gorgeously colored sea-mosses and rocks, are magnificent.

The Caves can be entered and explored at low tide from the water side, or at any time through the TUNNEL constructed by Prof. Schulz.

For further information and tickets, apply at all railway and hotel offices, branch offices, or at station, foot of D Street, San Diego.

INTRODUCTORY.

In presenting this volume, we desire to congratulate its patrons and our citizens generally on another year's record of remarkable and most satisfactory growth and progress. It is needless for us to give elaborate and detailed statements of this growth.

The evidence in plenty is on every hand, and the daily press has from time to time furnished full and gratifying reports showing the great gains made in postoffice business, bank clearances, school enrollment, etc.

Happily, in the history of San Diego, her years of adversity have been few, as compared with those of rapid growth and abundant prosperity.

There is that in the situation of San Diego—her natural advantages, the pluck and business enterprise, and the loyalty of her citizens, that she simply can not be held back or discouraged, and soon the new and better era of great prosperity and growth will begin.

The City Directory will try to be a faithful and trustworthy exponent of the City's progress, industrially and commercially.

The City Directory is becoming more and more acknowledged as one of every business man's necessities, if he desires to carry on his business economically and successfully.

We have endeavored to keep step with the growth and progress of the City, and we believe the present volume will be found to contain all the necessary features of a modern, up-to-date work of the kind. By our system of exchange with other cities, the San Diego Directory finds a place in the Directory Libraries of nearly all the principal cities in the United States and Canada.

POPULATION.—The greatest care has been exercised in compiling this volume. Our Directory shows 12,780 names in the alphabetical list of San Diego, an increase of 2,103 over the last issue. Coronado contains 690 names, showing a decrease since the previous publication. National City has 726 names, showing an increase of 122. It is customary when estimating the population of a city to multiply the number of names in the directory by 2½. Instead, we use 2¼, and by so doing it gives San Diego a population of 28,755.

Accompanying this book is an indexed map of the City of San Diego, engraved expressly for the San Diego Directory Co.

We desire to extend our sincere thanks to our patrons and all who have rendered assistance by giving information for this work.

THE PUBLISHERS.

To turn in an alarm from a fire alarm box break the glass in the small box on the post, take out the key and put it in the large box and open the door. You will find a hook inside, pull down strong and' let go quick. That is all that is necessary.

To send an alarm by telephone, call up central, tell the operator that there is a fire, giving street and number. The operator will notify the fire department. Have some one stand out in front of the premises so as to inform the firemen where the fire is located.

All ***sensations*** are first, last and always expressions of ***nerves.***
No matter where the sensation is located, it is always the speaking of a nerve. The headache is caused by a nerve or nerves not at ease.
Deafness is produced by interference with the auditory nerve, more or less paralyzing it. Throat and chest affections, dis-ease of the digestive organs and intestines, dis-ease of the male and female organs, are all caused by some interference with the nerves to any and all of these organs. Remove this interference, and all pain and dis-ease will disappear.
